- History of strong, proactive management skills overseeing project team (including client, subcontractors, suppliers, and designers) to deliver completion of project on time and on budget.
- Clean DMV history and pass background check.
- Software proficiencies and a willingness to learn new software.
- Strong ability to review construction documents and plans for conflicts/errors.
- Excellent organization, coordination, and prioritization skills.
- Great communicator and team player with leadership abilities.
- Character.

Responsibilities will include:

- Daily management and supervision of multiple projects.
- Develop and maintain project schedules from beginning to end.
- Enforce job site safety rules and regulations.
- Maintain professional communication with subcontractors and in-house team.
- Maintain accurate, timely, and professional communication with client throughout life of project to ensure customer satisfaction.
- Approval of project related invoices and weekly review of invoicing to client.
- Work with in-house project estimator/designer to review and approve subcontractor scope of work and pricing.
- Read and review in-house plans for conflicts/errors.
- Schedule and manage of governmental and utility inspections and/or work.
